

## Key Legislators in Amending HB176 & HB74

### Representative Walt Leger, III

Authored HB176 (Meningitis Booster), heard our concerns, met with us to discuss amendment and even though he's for vaccinating, he doesn't believe people should be forced or misled to do it.

### Senator Dan Claitor

Member of the Senate Health & Welfare Committee. Very open to our concerns and when Sen. Mills mistakenly (but innocently) referred to us as "anti vaccine moms" he corrected him and said we are "pro wanting to know what goes into our children's bodies and that's a fair thing for them to want to know".
